

one penny red wine

one penny red believes in sourcing wines from small artisan growers, who make wine with integrity and respect for the land. In many cases the winemaking approach in the vineyard is sustainable, organic and/or biodynamic. These wines are labour intensive and made by hand, some with minimal intervention where its common place to allow fermentations to occur naturally with indigenous wild yeasts. There are wines that have low or no sulphur dioxide added, others are not fined or filtered.

Mostly these wines are fresh and alive, and love being enjoyed with food to show off their personality.

We hope you enjoy our selection of these hand crafted wines and take away the experience of trying something that is both new and accessible.
